HAMZA ZAFAR

SOFTWARE ENGINEER

CAREER OBJECTIVE

I design and construct websites and online apps as a web developer utilising a variety of tools and programming languages. Building popular websites, coming up with novel ideas, winning honours or awards, and helping customers or employers succeed are all examples of achievements. I'll focus on difficult tasks that will allow me to develop my talents and keep current with technology.

WORK EXPERIENCE

DevNation

Front End Web Developer at DevNation | May 2021 - Oct 2021

- Learned various web development languages like HTML, CSS, JavaScript, and React JS.

PROJECTS

Antitumor (Brain Tumor Detection)

Web Based Final Year project developed with front-end in HTML/CSS, Bootstrap, and back-end in Django. The purpose of the project is to detect the Tumor in the MRI scans. It also contains a calorie calculator to calculate the calories in food and articles related to a healthy lifestyle for users.

Todo Web App

React Web app, in which users can create and delete tasks.

I have Replicated many popular web pages such as Netflix, LinkedIn, and Nestle.
