TECHNICAL SKILLS

- HTML
- CSS
- Tailwind
- JavaScript
- React.JS
- GitHub
- Next.JS
- Node.JS
- Express.JS
- MongoDB
- FireBase
- Rest API

WORK EXPERIENCE

Frontend Developer Intern, Contour Software (Pvt) Limited Mar 2023 - May 2023

- Worked on real world React projects, focusing on UI development and bug fixing.
- Improved user experience by optimizing responsiveness and interface consistency.
- Collaborated with senior developers on client-facing modules.

React Developer Intern, DevNation May 2021 - Oct 2021

- Gained hands-on experience in React development through structured learning.
- Developed interactive UI components and implemented routing and state management.
- Built clones of real world applications like Netflix, LinkedIn, and Nestlé to sharpen UI/UX skills.
- Worked with Git for version control, Firebase for deployment and authentication, and Node.js for backend integration.

Final Year Project – Brain Tumor Detection Jan 2023

- Developed a web application integrating a CNN model for brain activity detection, achieving model accuracy between 85%–95% using a dataset of 20,000+ images.

PROJECTS (Full Stack – MERN)

- **ChatApp** – Real time MERN messaging app with authentication, live chat, and user-blocking functionality.
- **Resume Builder**– MERN Resume Builder with customizable templates and real-time editing.
- **DeepSeek Clone** – AI platform UI clone using Next.js with full-stack features.
- **Text-to-Image Converter** – MERN app generating images from text using AI APIs.

EDUCATION

Bachelor of Science in Computer Science Feb 2019 - Mar 2023

Comsats University Islamabad, Sahiwal Campus

- CGPA: 2.70
